

Dear Colleague,

**Is this Speaker Pelosi's "commonsense plan" for reducing
Americans' energy costs?**

**NO! to ANWR's 30 year, 1 million barrel per day supply of American
oil**

NO! to 2 Trillion Barrels of American oil shale

NO! to more clean burning natural gas

NO! to Clean Coal.

**NO! to more energy exploration in the 85% of OCS off-limits to energy
development**

NO! to more energy exploration in the Intermountain West

NO! to more Nuclear Power

NO! to more Hydropower Energy

NO! to expediting alternative energy development
NO! to any form of energy that will provide meaningful relief from
record high energy prices
NO! to 90% of the energy that fuels America's economy

NO!! IS NOT AN ENERGY PLAN

Sincerely,

DON YOUNG
